

AIRCHEK 52

The AirChek® 52 air sample pump provides a 5 to 3000 ml/min flow range and 12+ hours run time for complete sampling flexibility. AirChek 52 is ideal for use with sorbent tubes and impingers for gas/vapor sampling and filter cassettes and size-selective samplers for particulates.

- Flow range of 1000 to 3000 ml/min
- Ideal for most personal sampling applications including sorbent tubes, filter cassettes, impingers, and size-selective samplers, and long-duration detector tubes; high flow range of 1000 to 3000 ml/min; low flow range of 5 to 500 ml/min requires low flow accessories
- Constant flow compensation
- Provides constant flow within $\pm 5\%$ for accurate air volumes
- For both high and low flow applications
