

NOISECHEK

PERSONAL NOISE DOSIMETER

The SKC AirChek TOUCH is the first personal sample pump to have a colour touch screen display. This provides the user with an intuitive, touch interface to navigate the pump's various functions. The use of colour draws attention to the various items of information displayed, such as the run/stop key, real time flow rate and alarms. The backlit screen has a protective cover and there is a security locking system to prevent tampering during sampling.

Key features

- Largest display screen on a cable-free dosimeter
- Meets ANSI S1.25, IEC61252 (Class 2)
- Device lockout feature for security
- Bluetooth low-energy (BLE) to mobile device with SmartWave dB app
- DataTrac dB software for dosimeter setup and data management
- More than 40 hours of run time with Li-Ion battery
- Easy Automatic calibration with AcoustiCHEK Calibrator
- Small and tough for easy worker acceptance
- Status indication by highly visible colored 360-degree LEDs.
