

POCKET PUMP TOUCH

The SKC AirChek TOUCH is the first personal sample pump to have a colour touch screen display. This provides the user with an intuitive, touch interface to navigate the pump's various functions. The use of colour draws attention to the various items of information displayed, such as the run/stop key, real time flow rate and alarms. The backlit screen has a protective cover and there is a security locking system to prevent tampering during sampling.

- Intuitive touch screen for easy navigation and programming
- Compact, lightweight design
- Flow range, 20 to 500 ml/min, ideal for vapour sampling
- Bluetooth communication with PC/Laptop and DataTrac® Pro software
- SmartWave App - Set, operate and monitor the Pocket Pump TOUCH from your mobile
- Powerful Li-Ion battery for long run times, over 20 hours at 500 ml/min
- Large, high contrast backlit LCD
- Constant Flow & Constant Pressure modes
- Rubber case overmoulding provides quiet operation, a non-slip grip and impact protection
- Built-in sampling data storage
- Optional quick-connect adaptor for secure bag sampling
- The Pocket Pump TOUCH is also available in vapour/gas kits.
