

SI-CA 030 ALL THE ESSENTIALS FOR COMBUSTION GAS ANALYSIS

The Si-CA 030 offers everything heating engineers need to inspect and maintain residential and commercial boilers, with wireless connection to our smartphone app and automatic generation of servicing reports and certificates.

FEATURES

- Up to three gas sensors O2, CO and NO (for NOx)
- CO sensor measurement up to 8,000 ppm
- Auto pump cut-off for high CO levels
- Color display screen
- Lightweight, only 350 g (12 oz)
- Data management with automatic logging & report creation
