

101 P7 WATER LEVEL METER

For measuring the depth of water in wells, boreholes, and standpipes, the Model 101 Water Level Meter is the most accurate and reliable meter. It is sturdy, easy-to-repair and read to 1/100 ft. or to each millimeter.

- 101 P7 Submersible Probe measures water levels and total well depth
- More consistent measurements with sensor located at the tip of probe
- Solinst PVDF flat tape has increased tensile strength and electrical efficiency

**FLEXIBLE
MARKINGS EACH 1/
100 FT OR MM**

**NON-STRETCH
STAINLESS STEEL
CONDUCTORS
LONG LIFE**

Rugged, corrosion
proof components

Strong, flexible tape,
is easily spliced
