

# UV LIGHT METER UVC

UV light intensity appears on the large backlit display in either  $\mu\text{W}$  or  $\text{mW}/\text{cm}^2$  while the small lower display simultaneously shows minimum, maximum, average and recorded data. Up to 20 data points can be recorded automatically at a variety of intervals. Features zero point reset, hold, and indicates when the battery is low. Comes in a protective hard foam lined carrying case complete with a UV probe, tripod screw, magnetic mount and a 9V battery.

Measures long and medium wave UVC for applications such as forensics, chromatography, electrophoresis and dermatology.

- Measure damaging UV (ultraviolet) light in the environment and museums.
- UV degradation studies in the pharmaceutical, cosmetic, semiconductor, printing, window tinting, and other industries.
- Laboratory chromatography, electrophoresis and forensics.
- Test UV sterilization and dermatology lamps in hospitals.
- 5 Year Warranty, CE, RoHS.
- Dimensions:  $5\frac{1}{2}" \times 1\frac{7}{8}" \times 1\frac{1}{8}"$  (140 × 49 × 30 mm)
- Weight (with probe): 8.6 oz (246 g)
- Cord Length: 45  $\frac{1}{2}"$  (outside the wand attachment)
